This pattern is made to measure.

All measurements should be taken by slightly stretching your work as it will stretch.

Feel free to sell your finished product of course but do not share or well this pattern. Please tag me at Mariemadeit__ for pattern credit :)

If you have any questions you can reach me on etsy or instagram Mariemadeit__

VIDEO TUTORIAL WILL BE LINKED HERE

WAIST BAND:

Row 1:

Chain 9 plus a turning chain. (10st)

This will be the width of the waist band. Chain more or less depending on desired width

Row 2:

Sk on st, hdc in each stitch across. Chain 1, turn. (9st)

Row 3:

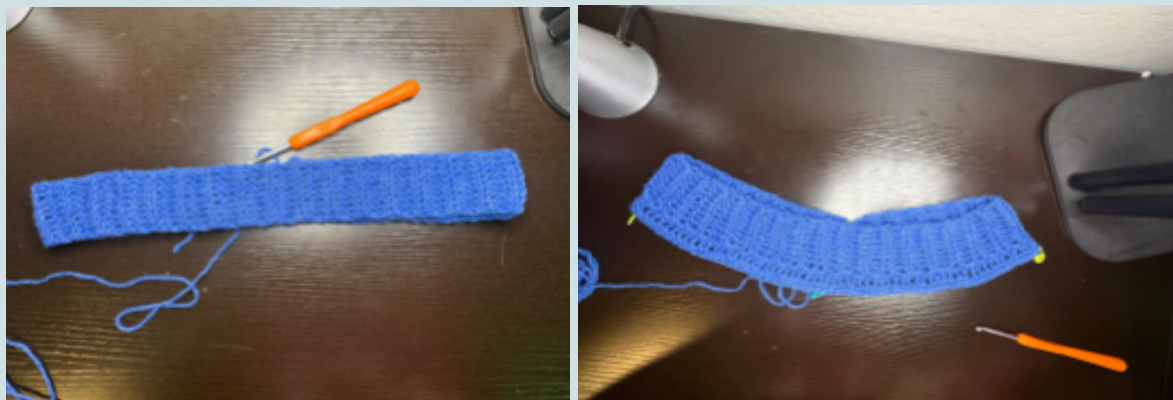

Hdc in each st across, chain 1, turn. (9st)

Row 4:

Repeat row 3 until you reach your waist measurement.

Once you reach your waist measurement, hold both ends together and sl in each st across closing your waistband.

Chain 1, turn.

BODY:

Row 1:

Hdc inc in the side of each row around. SL into chain 1 Sp to close. Chain 1, turn.

Now we will place our st markers.

Count the number of st around, Divide that number by 2.

(EX: i have 124 st around. $124/2 = 62$. So the 62st will be my middle stitch for splitting the legs. Place a st marker here.)

Now take your starting st number again Ex: 124 & divide that by 4. $124/4 = 31$. Starting from the starting chain count this number ex: 31 and place a st marker. Now starting from the chain 1 sp again count the opposite direction & place a st marker here. These will be where we inc to reach our hip

measurement. TIP: I color code my st markers. Both st markers at the hips will be the same color and the middle st will be a different color.

Row 2:

Hdc in each st around. Sl into the 1st hdc. Chain 1, turn.

Row 3:

Hdc in each st until the 1st st marker. 3hdc into st marker sp. Place st marker into that middle st. continue hdc in each stitch including the next st marker (middle st marker). 3hdc inc into the next st marker place placing the st marker into the middle st. continue hdc in each st til end. Sl to begging hdc. Chain1, turn.

Row 4:

Repeat rows 2 & 3 until you reach your hip measurement. **Remember our capris are closed and working in the round so when measuring you will be measuring to half your hip measurement as its folded in half**

You can now remove your hip st markers but keep your middle st marker.

Once you reach your hip measurement continue working regular hdc rounds until you reach your crotch depth measurement.

Leg 1:

Now we will split the legs

Start by making a chain long enough to reach from the back of your shorts to the front.

(EX: I chained 12 for a size large)

I would recommend trying them on at this point to make sure you chain is long enough. If its too short it will pull your waistband down and if its too long your will have a baggy crotch area.

Once you've made your chain, sl into the front middle st marker.

Each leg will be worked separately.

ROW 1:

Chain 1, turn. Hdc in each st around, sl to 1st hdc.

ROW 2:

Chain 1, turn. Hdc in each st around, sl to 1st hdc.

At this point you can use your stitch markers again to mark the sides of your leg or you can just eye ball it as i do. We will start decreasing by placing decreases at the sides (inner and outer part of the leg)

Row 3: *Chain 1, turn.* Hdc dec, hdc in each st until you reach the other side of the leg or your st marker if you used one. Hdc dec, continue hdc in each st til end. Sl to 1st hdc.

Repeat rows 1-3 until you reach your desired length.

Chain 1, fasten off.

If you notice your capris are either getting skinny to fast or not fast enough, you can either:

Not skinny enough: decrease every other row. Repeat row 2&3

Too skinny: add more rows before decreasing. Repeat row 2, 3 or more times and then do a decrease row and repeat.

Leg 2:

Attach yarn at the back near the seam & chain 1.

Row 1:

Hdc in each st around *including the chain sp from slitting our legs.*

Row 2:

Repeat same steps and row count as leg 1.

Chain 1 & fasten off.

RUFFLE (OPTIONAL):

Attach yarn to any st

Row 1:

Chain 2, 2dc in same sp, *2dc in next, 3dc in next*

Repeat ** around.

Sl to chain 3

Row 2:

Chain 2, 2dc in same sp, *2dc in next sp, 3dc in next*

Repeat ** around

Sl to chain 3, fasten off.

DRAWSTRING:

Option 1: (standard tie at the front)

Make a very long chain that is long enough to wrap around your waist and have extra slack to tie comfortably at the front.

Choose between ant stitch, sc, hdc, dc. This will determine the thickness of your drawstring. Work back down the chain placing a st in each st. fasten off.

Using your darning needle or crochet hook weave your drawstring through the your waistband evenly to tie at the front.

Option 2: (2 strings that tie at each side of the waist and hang very low)

MAKE 2

Make a very very long chain

Skip 2, dc in each st til end.

Fasten off

Mark each side of the waistband (where you'd like the strings to tie)

Using your crochet hook weave each drawstring through the waistband. One weaving through the front side and coming out on each side and the other weaving through the back side and coming out on each side.

Your City Girl Capris are complete!! Id love to see your finished product & Please don't forget to leave a review if you loved this pattern :)
