

Marie Madelt

Thank you so much for your support! This pattern is beginner friendly & is made to measure. I have included a standard size chart that can be used as well. If you have any questions feel free your message me on Instagram @Mariemadeit__

Crochet Mesh Cardigan Pattern

Created by:

Marie Madelt

Materials

Recommended: Weight 4 acrylic yarn
12mm or 18mm crochet hook
Scissors, stitch markers, tapestry needle
Measuring tape

**I used approx. 800yds or 2 1/4 of big twist vortex yarn. *
You can use any weight yarn & hook size. The larger the hook
the larger your stitches will be. For example my orange/multi
cardigan used a 18mm & the red one a size 10mm*

Terminology

Ch : Chain
Hdc : Half Double Crochet
Sl : Slip stitch
Sc : Single Crochet

Sizing

This pattern is made to measure. You will need your shoulder width measurement & then a measurement for the length you'd like your cardigan. Below you will find a standard size chart, you can use these measurements or take your own.

Mesh Cardigan Size Chart

measurements are all in inches

Size	Shoulder Width	Arm Hole Depth	Sleeve Length
XS	14"-15"	7"-7.5"	16.5"
S	15.5"-16.5"	7.5"-8"	17"
M	16.5"-17.5"	8"-8.5"	17"
L	18"-18.5"	8.5"-9"	17.5"
XL	19"-20"	9"-9.5"	17.5"
XXL	21"-24"	10"-13"	18"

Back Panel

Make a chain that measures your shoulder width & is a even number.

Row 1: skip 1st, hdc into the next st.

Ch 1, skip 1 st, hdc into the next

Repeat **til end

(We will be working into the previous hdc stitches from the previous row) (Chain 3 will always count as a hcd ch1)

Row 2: *Chain 3, turn.

hdc into the next hdc.

Ch, hdc into the next st*

Repeat * til end of row

Row 3:*Chain 3, turn.

Hdc into the next hdc, ch1, hdc into the next st.

Repeat until end of round placing final Hdc into the 2nd ch of the previous ch2 sp.

**Repeat row 3 Until you reach the length you'd like your cardigan See photo 1*

Front Panels

With yarn still attached. Count how many spaces you have across.

Divide this number by 2.

Subtract that number by 2

Now using this new number count out that many stitches from each end & place a stitch marker

This will mark the width for our front panels.

Continuing where we left off:

Row 1: Chain 3, turn.

Hdc into the next st, chain 1, hdc into the next

Repeat ** until you reach the first st marker
(placing your last st into that space)

Row 2: Chain 3, turn

Hdc into the next st, chain 1, hdc into the next

Repeat row 2 until you've completed the the same amount of rows as your back panel. Fasten off & cut your yarn

Panel #2 Attach your yarn to the top corner of the opposite side

Row 1: Chain 3 hdc into the next hdc, ch1, hdc into the next

Row 2: chain 3, turn

Hdc into the next, chain 1, hdc into the next

Repeat row 2 until you did the same amount of rows as your back panel

Fasten off & cut your yarn.

See photo 2

Sleeves

At this point you can lay your project flat & measure your arm hole length starting at the top of the cardigan using the measurement chart on page 1 or use your own measurement.

Use a stitch marker to mark this measurement along the front side of the cardigan. (Into a space instead of a hdc stitch)

Make sure to mark the corresponding row on the back side. & work towards the top of the cardigan.

**We will be working each sleeve in rows rather than rounds **

Attach your yarn in one of the stitch marker spaces. See photo 3 & 4.

Sleeve #1:

Row 1: chain 3,

hdc into next space, chain 1, hdc into the next sp.

*Continue ** until the next st marker*

Row 2: chain 3, turn

Hdc into the next hdc, chain 1, hdc into the next

Repeat row 2 until you reach your sleeve length

With yarn still attached: We will close our sleeve and the current working side of our cardigan.

With both sides together: Chain 1, place 1sc into each space up the sleeve & down the side of your front & back panel.

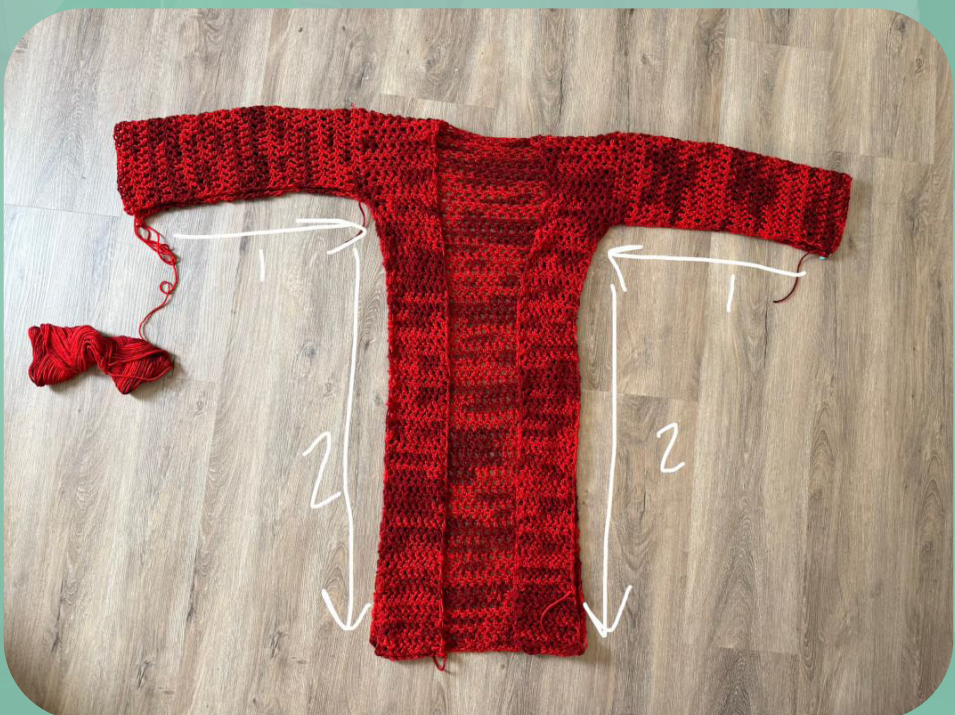

Once you reach the end of your panels. Fasten off & cut your work.

Sleeve #2

Repeat the same steps as sleeve 1.

Now with all sides together like photo below, sc into each space all the way up the sleeve and down the side of your front/back panels to close the cardigan together.

Now turn your work right side out so that your seams are on the inside.

Drawstring

Option #1: Permanent drawstring

Attach yarn to any sp on a front panel and make a chain of at least 50.

Fasten off, cut your work & do the same to the corresponding sp on the other side.(I'd recommend trying on first to determine where you want your strings.

Option #2: Removable drawstring

Make a chain of 110 or more. Fasten off.

Thread your drawstring into any corresponding spaces of your front panels & tie.

Weave in or tie off any ends & your cardigan is complete 💕

Thank you!

Thank you so much! I hope you enjoyed this pattern. If you have any questions feel free to message me. I would also love to see your photos, you can tag me or reach me on my Instagram @Mariemadeit____
